

AS9100 Rev. D Internal Auditor Virtual Training Course

Presented by: Karen Branson

Prior to joining Perry Johnson Consulting, Karen spent a 34-year career at Boeing. She was the Quality Program Leader for the Space Launch System Program. As the Quality Program Management Rep., she maintained the AS9100 certification and management of Q. Sys. Integration personnel and oversight of SLS suppliers. She interfaced with NASA and DCMA. Karen hold a BS in Economics, is a certified Quality Engineer for ASQ and is an AS9100 Lead Auditor.

This course is designed to:

- * Explain the purpose, content of the core management system documents: AS9100/ISO 9000, ISO 9000, ISO 9004:2009 and ISO 19011.
- * Interpret requirements of AS9100 in the context of an audit.
- * Describe roles and responsibilities of internal auditors and internal team leaders.
- * Plan and conduct an audit as described in ISO 19011, demonstrating ability to:
 - Plan and prepare effectively
 - Gather objective evidence
 - Analyze and interpret information to determine conformity
 - Report the audit and summarize conclusions and findings
 - Conduct follow-up activities, including evaluation of corrective actions.

Seating is limited so don't delay!
